LOCAL EXPRESS

We hope you've enjoyed Keim's Local Express, in-home delivery service in the past year. Now you can enjoy a simple process and delivery, giving you time for the more important things in life.

As the seasons change, this catalog will serve you through the fall and winter. It has the everyday household items and the products you need to make the most of the cooling temperatures and coming holidays. You can expect a new catalog next spring.

Sāg Dank,

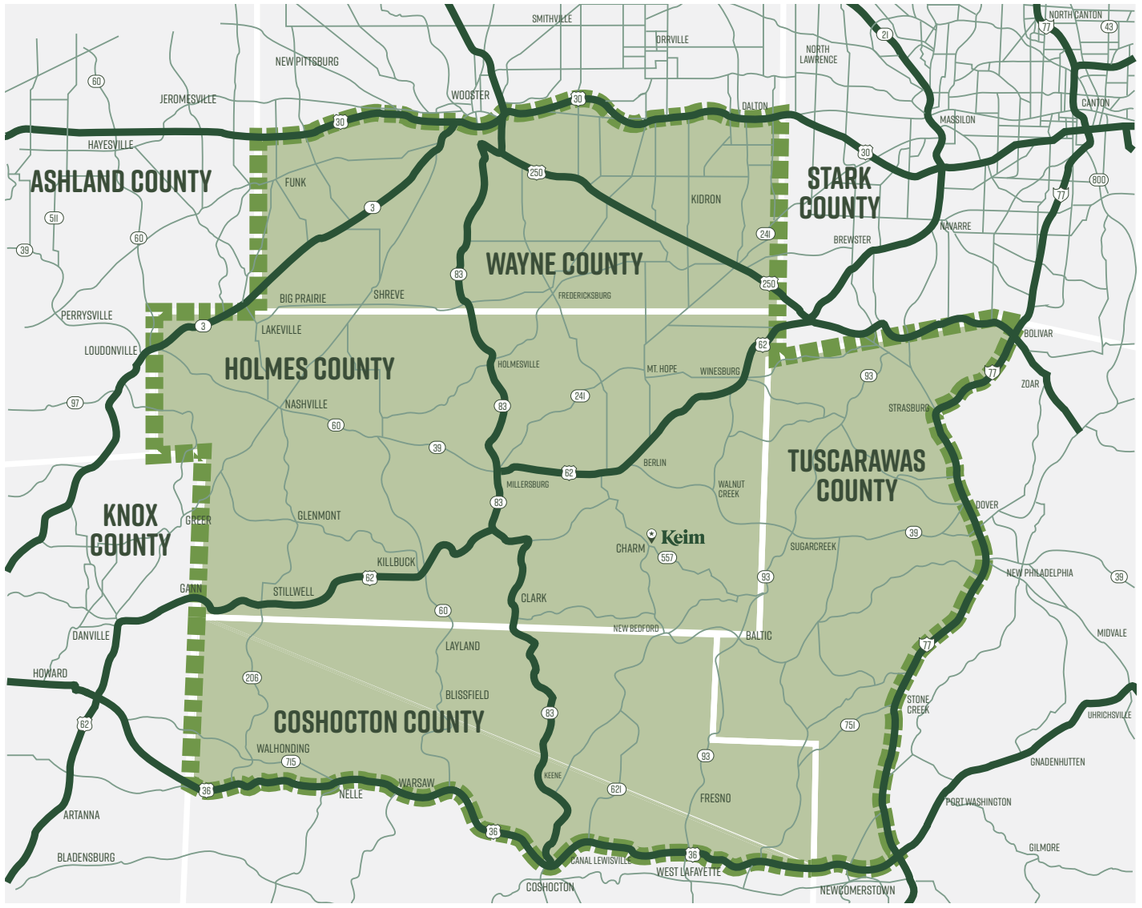

Abe Troyer, Executive Director of Sales

HOW TO ORDER

We are committed to free, next-day delivery on all in-stock items for local customers defined in the map below.

To make your phone order as easy as possible, please follow these steps while ordering:

1. Call **330.893.5030** or visit **express.keimlumber.com**.
2. Have this information nearby:
   a. Your product list, organized by SKU number.
   b. Your credit or debit card.
   c. Your shipping address.

If you would like to pick up your order, please schedule a time with us. When you arrive, pull around to the service building on the west (left) side of the store. Just look for the stop sign!

Looking for something that's not in the catalog? Ask our salesperson. Our catalog keeps growing but it still shows a limited selection of what's available in our store. We're happy to check on your item's availability!

CANNING RECIPE: PEPPER JELLY *By Ball*

Ingredients:

- 4½ c. finely chopped green, red or yellow bell pepper or a combination (about 4 large)
- ½ c. finely chopped jalapeño pepper (about 4 small)
- 1 ¼ c. cider vinegar
- 3 tbsp. Ball® RealFruit™; Low or No-Sugar Needed Pectin
- 2 c. sugar
- 1 c. honey

Directions:

1. Prepare boiling water canner. Heat jars in simmering water until ready for use. Do not boil. Wash lids in warm soapy water and set bands aside.
2. Combine bell peppers, jalapeño peppers, and vinegar in a large saucepan. Gradually stir in pectin. Bring mixture to a full rolling boil that cannot be stirred down over high heat, stirring constantly.
3. Add sugar and honey. Return mixture to a full rolling boil. Boil hard for 3 minutes, stirring constantly. Remove from heat. Skim foam if necessary.
4. Ladle hot jelly into hot jars, leaving ¼ headspace. Wipe rim and center lid on jar. Screw band on until fingertip-tight. Place jar in boiling water canner. Repeat until all jars are filled.
5. Process the jars for 10 minutes, adjusting for altitude. Turn off heat; remove the lid, and let the jars stand 5 minutes. Remove the jars and cool. Check the seal after 24 hours. The lid should not flex up and down when the center is pressed.

NESCO PRESSURE COOKER RECIPE: SALTED CARAMEL CHEESECAKE

By Nesco

Ingredients:

Crust

- 1 c. graham cracker crust
- 3 tbsp. butter, melted

Filling

- 2, 8 oz. packages cream cheese
- ½ c. sugar
- 1 tsp. vanilla extract
- 2 eggs

Topping

- 2 tbsp. coarse sea salt
- Caramel syrup for drizzling

Directions:

1. Mix graham crackers and melted butter in a bowl and press evenly into the bottom on an 8” springform pan and about 1 inch up the sides. Set aside.
2. Beat cream cheese on medium-high until smooth. Add sugar and vanilla while continuing mixing. Add eggs one at a time, scraping the sides of the bowl as necessary. Pour filling into the prepared crust.
3. Place the wire rack and 2 cups of water in NESCO® Pressure Cooker. Fold a 12” piece foil into thirds to create a “sling” for easy removal of the pan. Using the sling, lower the pan into the Pressure Cooker and lock the lid. Set pressure valve to “pressure” and cook on HIGH for 25 minutes.
4. When timer is up, use Quick Release to lower the pressure. remove cheesecake from Pressure Cooker and let cool slightly.
5. Sprinkle sea salt on top of cheesecake and drizzle with caramel syrup. Chill for at least 3 hours, or up to 2 days.

AIR FRYER RECIPE: POTATO WEDGES *From All Recipes*

Ingredients:

- 2 medium Russet potatoes, cut into wedges
- 1½ tablespoons olive oil
- ½ teaspoon paprika
- ½ teaspoon parsley flakes
- ½ teaspoon chili powder
- ½ teaspoon sea salt
- ⅛ teaspoon ground black pepper

Directions:

1. Preheat air fryer to 400 degrees F (200 degrees C).
2. Place potato wedges in a large bowl. Add olive oil, paprika, parsley, chili, salt, and pepper and mix well to combine.
3. Place 8 wedges in the basket of the air fryer and cook for 10 minutes.

HAVE YOU CHANGED YOUR FURNACE FILTER RECENTLY?

It's a good idea to change the air filter in your furnace every 90 days to keep your air smelling fresh. Keep in mind that is a general rule and depends on the amount of dust coming into your home. Having pets in your house or keeping a window open could increase the dust in your home and reduce the life of your air filter.

TWO STEPS TO BETTER WATER

The quality of your water is essential. Not just because it tastes better, but because clean water is a necessity for a healthy life. Did you know that your body is 70 percent water? You can improve your water quality with two easy steps:

1. Change your water filter. This removes all the sentiment to make your water clear. It's a good idea to change your water filter once a month, but you may want to change it more often if your water looks dirty. To make sure that your water is exceptionally clean, try Culligan's Three-in-One Ultrafiltration System, which reduces lead, bacteria, viruses, and other contaminants, right at the faucet.
2. Add salt to your water softener. This helps balance the acid and base, otherwise known as the pH level, in your water. It also takes out calcium, which can stain and damage your water pipes.

WHAT ARE THE BENEFITS OF SOFT WATER?

- A little soap goes a long way. You'll find that you don't have to use as much soap to get a sink full of bubbles, if you have soft water.
- You'll keep your sinks and faucets cleaner, because soft water won't leave hard-to-clean calcium deposits and stains in your sink.
- Your plumbing will last. Hard water eats away on your plumbing lines. So why not do what you can to protect your pipes?

freedomRail®

freedomRail is the most innovative concept in home storage and organization. This high-quality adjustable system provides all the benefits of a custom closet while being easy to install, easy to adjust and easy to upgrade.

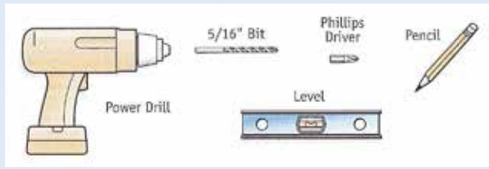

Once you experience the amazing ease of a freedomRail installation, you will feel confident to tackle every closet in your home!

EASY TO INSTALL
Using a level and a drill, a novice Do-It-Yourselfer can attach the Rail to the wall. After that, all other components simply lock into place. No complicated instructions – no confusing parts and pieces. You will be astonished at how quickly you can do this!

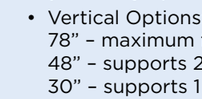

EASY TO ADJUST
All components are designed for a lifetime of use and re-positioning and the ease of adjusting encourages you to make changes. Reposition shelves to fit a growing child or move pantry shelves to accommodate a large blender. With the flexibility designed into freedomRail, changes are a snap!

EASY TO UPGRADE
Place a Rail in every closet of your home and then choose from a variety of options to customize that storage space. Shelving can be Profile or wood. O-Boxes can be added to any closet for enclosed storage. Now you can make your storage work for you.

RAILS: The primary support component of the system and the basis for a lifetime of storage freedom!

- Measure wall and subtract 1" to establish Rail length. Allow ½" on either side of Rail.
- You may combine smaller size Rails, or you may cut a long Rail to fit your measurement.
- Patented Anchor system means there is no need to measure or align with stud locations.

UPRIGHTS: Slotted channels provide a multitude of adjustability options.

- Vertical Options:
  78" – maximum flexibility, best long-term choice.
  48" – supports 2 rows of short hang.
  30" – supports 1 row of long hang.
- Horizontal Spacing:
  36" apart for normal closets.
  30" apart for pantries.
  24" apart for O-Boxes.

INSTALLATION

The Rail

1. Measure up to 84” from the floor. Use a level to draw a level line at this height.
2. Place the Rail on the wall so this line is visible through the mounting holes. Make a circle at each hole. No need to align hole with studs.
3. Drill each mounting hole with a 5/16” drill bit. If you do hit studs, use 5/32” drill bit to make a pilot hole. In this case, you will use the Screw only – no Anchor.
4. Tap plastic Anchors into 5/16” holes.
5. Place Rails over Anchors, twist in several screws to hold Rail.
6. Insert and tighten all screws with a power drill.

IMPORTANT: Allow screw to turn 6-8 full rotations after it is flush with the Rail so that the Anchor tightens into a ball behind the drywall.

7. Place Cover Stickers over each screw head.

INSTALLATION continued

Uprights and Brackets

1. Insert Uprights onto the Rail at appropriate spacing intervals (refer to Planning Guideline).
2. Insert Brackets into Uprights at appropriate shelf heights (refer to Planning Guidelines).

Rod Clips

1. Rod Clips are placed into brackets prior to installing shelves.
2. Insert Rod Clips into the Bracket and pull downward until you feel it snap into place.

Hanging Rod and Rod Stops

1. Spin the flange on the Rod Stop until it is halfway up threaded shaft.
2. Push Rod Stop into Rod; then twist the Stop until it tightens.
3. Place completed Rods onto Rod Clips. Pull downward until they snap into place.

Shelving (Profile)

1. Lay shelf onto Brackets with center shelf rod positioned atop center bracket notch. (1)
2. Push down on center Shelf rod. Then lift the front edge and slide the Shelf back. (2)
3. Shelves may be cut to fit exact measurements using a pipe cutter; apply End Caps to edges.

Shelving (Wood)

1. Shelf Locators attach Wood Shelves to Wood Shelf Brackets.
2. Place two Shelf Locators into each bracket. Remove double stick tape.
3. Place Shelf onto Bracket in desired position and press adhere to Locators.
4. An optional Screw is provided with Shelf Locators if a fixed connection is desired.

O-Boxes

1. Uprights are spaced 24” apart for O-Boxes. Insert the O-Box bracket into the inside slot of each Upright.
2. If installing a stack of O-Boxes, install bottom O-Box first.
3. If installing O-Boxes side-by-side, each O-Box will use its own set of Uprights.

HOT STUFF ADHESIVES 2 OZ.

RED - THIN - HOT STUFF

Is ideal for filling and stopping the spread of splits and hairline cracks in furniture, gunstocks, wood being turned on a lathe (such as pen blanks), and stone. To strengthen stone and porous wood, apply Hot Stuff CA glue to the entire surface and allow it to soak into the pores and cracks- you can also use this instant glue on carbon fiber or fiberglass cloth instead of using resin!

YELLOW - MEDIUM - SUPER-T

This super glue is perfect for gluing somewhat porous materials and pieces which have small gaps between them. Super T instant glue cures at a slower speed (10-25 seconds) than Hot Stuff. You can bond wood, metal, rubber, nitrile, composites like carbon fiber and Kevlar, many types of plastics, and more.

GREEN - THICK - SPECIAL-T

Special T CA glue (green label). This super glue works great when you use it to bond both porous and non-porous parts, and it can fill larger gaps than our Super T medium CA glue. It is best used to glue parts that are missing pieces or don't fit very well together. You can bond the same materials as with our other CA glue- wood, metal rubber, nitrile, composites, many types of plastics- and Special T is effective even when a poor fit makes parts look impossible to bond. Cures- 20 second with accelerator or 60 seconds without accelerator.

TITEBOND QUICK & THICK GLUE

Titebond Quick & Thick Multi-Surface Glue is the thickest, fastest-drying water-based glue available for use with porous and semi-porous materials. It is ideal for wood, pottery, ceramic, stone, glass, fabrics, leather and most craft-type materials. Titebond Quick & Thick Multi-Surface Glue provides a strong initial tack and fast speed of set, yet allows realignment of working pieces. It also develops a bond stronger than the wood itself, dries clear and is unaffected by finishes.

PROJECT TIPS

Renovating your kitchen can be a big project, but it doesn’t have to be. With just a few easy upgrades, you can change the look and feel of your kitchen and do it all yourself.

1. **Paint.** Whether it’s your kitchen walls, cabinets, or in some cases, countertops, a little paint goes a long way. Visit our store, and we’ll help you pick out the perfect color scheme for your home.
2. **Cabinet Hardware.** Even minor details can reflect your personal style. Our sales staff can help you choose and install the perfect handles, knobs, and drawer pulls.
3. **Under-Mount Lighting.** You can make your kitchen feel extra cozy at the click of a remote. Simply add battery-operated, simple-to-install lights under your cabinets.
4. **Organization.** Renovations don’t always need to be seen to be valuable. A small investment in canisters, bins, and boxes can help you feel like you’ve got a new kitchen.

And remember, no matter the project, no matter the size, we’re here every step of the way— to help make your home dreams a reality.

GRILLED CHICKEN, MACARONI & CHEESE AND ASPARAGUS *By Traeger*

Ingredients:

- 1 tbsp. salt
- 5 qt. water
- 2 lbs. elbow macaroni
- 8 tbsp. butter
- ½ c. flour
- ½ tsp. dry mustard
- 1½ c. milk
- 2 lbs. Velveeta or American cheese, cut into ½ inch cubes
- ½ c. milk
- Salt and pepper, to taste
- Butter, as needed
- 1½ c. shredded cheddar cheese
- 4 tbsp. butter
- 2 c. plain dry breadcrumbs
- Paprika, as needed
- 1 whole (4 lb) whole chicken
- Traeger Chicken Rub, as needed
- 1 bunch asparagus
- 2 tbsp. olive oil
- Traeger Veggie Rub, as needed

Directions:

1. About two and a half hours before you are ready to serve, start prepping your macaroni & cheese.
2. Bring 5 quarts of water to a boil in a large stockpot over high heat. Add 1 tablespoon of salt.
3. Add the macaroni and stir. Cook for 2 minutes less than the time recommended on the package (the pasta will continue to cook in the Traeger). Stir periodically to keep the pasta from sticking. Drain well, and transfer to a large mixing bowl.
4. Melt 8 tablespoons (1 stick) of butter in a medium saucepan over medium heat. Gradually add the flour and mustard, whisking constantly. Continue whisking for about 2 minutes, being careful the mixture doesn't begin to brown. Gradually whisk in 1-1/2 cups of the milk, whisking continuously until the mixture is smooth.
5. Reduce the heat to medium-low and stir in the Velveeta, one-third at a time, until all the cheese is incorporated and melted.
6. Add more milk if cheese sauce seems too thick. Season to taste with salt and pepper. Pour the cheese sauce over the pasta and stir gently with a rubber spatula or wooden spoon.
7. Butter the roasting pan or casserole and pour the macaroni and cheese evenly into the pan. Sprinkle the cheddar cheese on top.
8. Melt the remaining 4 tablespoons of butter in a saucepan. Add the breadcrumbs and stir to coat with butter. Spread the breadcrumbs evenly over the top of the macaroni and cheese and dust lightly with paprika.
9. Set the macaroni and cheese aside. Next, you will prep your chicken and get it on the grill.
10. Before you prep your chicken, set the Traeger to 375* and preheat, lid closed for 15 minutes.
11. Remove the neck and gizzards from the cavity of the bird. Rinse and wipe the outside and inside of the chicken with a paper towel. Lightly season the inside and outside with Traeger Chicken Rub.
12. Place chicken on the grill and cook until the internal temperature reaches 165° in the breast, about 70 minutes. After 10 minutes into the chicken cooking, place the macaroni and cheese on the grill, and bake for 45-60 minutes, or until the mixture is hot and bubbling and the breadcrumbs are golden brown.
13. While the chicken and macaroni are cooking, prep your asparagus. Coat asparagus with olive oil and Traeger Veggie Rub, stirring to cover all pieces. Set aside until ready to cook.
14. After 45 min check on the macaroni. If it's bubbling and browned, remove from the grill and cover with foil to keep warm.
15. During the last 15 mins of the chicken cooking, place your asparagus on the grill. Let roast for 25-30 mins.
16. Remove chicken from grill when the internal temperature of breast reaches 160°. The temperature will continue to rise after it rests. Allow the bird to rest until internal temperature of breast reaches 165°.
17. Remove the asparagus from the grill and plate. Slice the chicken and serve with macaroni & cheese and asparagus. Enjoy!

SMOKED TURKEY RECIPE *By Traeger*

Ingredients:

- 1 (18-20 lb.) turkey
- 1 Traeger Orange Brine and Turkey Rub Kit
- ½ c. Traeger Pork & Poultry Rub
- ½ lb. butter, softened

Directions:

1. The day before, brine the turkey according to the Traeger Turkey Brine Kit package directions. Remove from brine, rinse and pat dry.
2. Season the inside cavity with 2 tablespoons Traeger Pork & Poultry Rub, reserving the rest for the exterior.
3. Prepare the turkey by separating the skin from the breast, creating a pocket to stuff the softened butter in. Cover the entire breast with 1/4 inch thickness of butter.
4. Season the exterior of the bird with the remaining rub.
5. Transfer to the fridge and let chill for at least 1 hour.
6. Remove from the fridge and truss the legs and tuck the wing tips back around the bird.
7. When ready to cook, set the Traeger to 225° and preheat, lid closed for 15 minutes. For optimal flavor, use Super Smoke if available.
8. Place the turkey in a roasting pan and place directly on the grill grate. Cook until the internal temperature reaches 100-110°.
9. Increase the temperature on the grill to 350° and continue to cook until an instant-read thermometer registers 160° when inserted in the thickest part of the breast (check every 30 minutes after grill temperature is increased), about 3 to 4 hours total cook time. Turkey will continue to cook once taken off the grill to reach a final temperature of 165° in the breast.
10. Remove the bird from the grill and let rest for at least 30 minutes before carving. Enjoy!

RANGER + STAND FIRE PIT SS
SKU 18537
$269.99

It’s for camping out a night in the mountains under the stars. It’s for warming up on a beach after hitting the waves. And yet, it’s right at home in your own backyard surrounded by your family and friends. Wherever you want to be, Ranger helps you turn good moments into lasting memories. Ranger is the most compact, ultralight fire pit out there that lets you enjoy a roaring, smokeless fire in minutes. Our Signature 360° Airflow Design™ creates a super efficient secondary burn. That means there’s way less smoke compared to other fire pits. The best part? Nearly everything burns to a fine ash, making Ranger easy to clean. Comes with a black, nylon carrying case. 15lbs. 7.5”w x 12.5”h.

BONFIRE + STAND FIRE PIT SS
SKU 18540
$349.99

Before Bonfire, we used to collect logs, kindle the fire, hope it didn’t flame out, and let it burn for 10 hours. Is there a better way? Congrats, you’ve discovered Bonfire, our best-selling smokeless portable fire pit. Comes with black, nylon carrying case. 20lbs. 19.5”w x 14”h.

YUKON + STAND 27 FIRE PIT SS

GIFT GUIDE FOR THE FIXER

1. **DeWalt 20 Volt Max Lithium-Ion 160 psi Corded/Cordless Inflator**
   Easily inflate bicycle tires, sports and camping equipment, water floats, and more! The inflator can run on any three power sources for maximum versatility: 20V MAX battery, 12V DC, or 110V AC. Simply use the digital gauge to set the desired air pressure, and the auto-shutoff will provide the exact inflation needed. Includes DCC020I air inflator, 12V DC power cord, high-pressure tapered nozzle, Presta valve adapter, inflator needle, and LED light.
   SKU 396804 **$114.99**
2. **Dewalt 60V Blower Flexvolt**
   This Brushless Handheld Blower features a variable speed trigger, with speed lock control reaching 125 MPH. With a brushless motor design, you can enjoy high power and extended runtime to blow any grass, leaves, or snow out of your way.
   SKU 705440 **$269.99**
3. **Weaver Leather Tool Belt**
   This locally made leather framer tool belt will keep all your tools within arm's reach.
   SKU 89244 **$249.95**

FIRE SAFETY TIPS

For many families, homes are safe havens. It's a shelter from the storms of life. To ensure that your family is safe-as-can-be, we've put together a list of helpful fire safety reminders.

1. Install smoke detectors on every level of the home and outside each sleeping area. Make sure to test your smoke detectors once a month. Make sure to replace your batteries every year or purchase a 10-year, battery-operated smoke detector (SKU 501147).
2. Place fire extinguishers in the kitchen and garage or workshop (SKU 311861).
3. Maintain electrical cords. Frayed or damaged electrical cords are a fire hazard and need to be replaced immediately.
4. Don't run electrical cords under rugs, as walking on the cables can cause the wires to fray and spark.
5. Remove the dryer lint in your laundry room, as it is highly flammable.
6. Teach children how to call 911 in case of emergency.

Even when you do everything you can to prevent a fire, it's still a good idea to plan a family meeting spot in a safe place outside of your home. Make sure that you practice meeting there so that when an emergency happens, you are ready and can ensure that you've kept your children safe.

DID YOU KNOW?

At Keim, we have smoke detectors with a 10-year battery life? Now you can sleep safe and sound. (SKU 501147).

KEIM FAMILY GAME

For the Keim family, summer evenings call for family fun around the campfire and games! Cornhole is a Keim family favorite and it is also an official sport! According to the American Cornhole Organization, the rules are as follows:

- Boards are placed 27 feet from front edge to front edge.
- Games are played to 21 or more points. (no bust)
- Woody: Refers to any cornhole bag that has been pitched and remains on the cornhole board playing surface after each frame. Each woody is 1pt.
- Cornhole: Refers to any cornhole bag that passes through the cornhole board hole at any time within the frame. Each cornhole is 3pts.
- A bag that comes to rest touching the ground AND the board does not count as a point.
- Cancellation Scoring: In cancellation scoring, the points of one player cancel out the points of their opponent. Using this method, only one player/team can score in each frame.
- Both players play one board at a time and stay in their designated lane for the whole game (right or left).
- Players start the game at one board and alternate pitching bags until each player has pitched all four of their bags.
- Players then walk to the end of their lane to the other board, take score, and resume pitching back to the other cornhole board.
- Players must deliver the bag with an underhanded release.
- Feet must stay behind the line of the front of the board at the time of releasing the bag.
- The player/team who scored in the last frame pitches first in the next frame. If neither player/team scores, the player/team who pitched first in the last frame shall retain the first pitch in the next frame.
- If bags become piled inside the hole and may interfere or obstruct with the next pitch or question whether a cornhole bag would have naturally fallen through the hole, a player may request to rake the cornhole bags that have fallen inside the hole.

FIRST QUALITY CORKS

Our first quality corks are a high quality, agglomerated cork. These "agglo" corks are made from uniform shavings and unused portions of cork, and are mixed with appropriate food grade glue to form a dense, well-made cork. The corks are chamfered and are printed with a decorative grape leave pattern. The 1000 count bags are purged with sulfur dioxide (SO2).

AGLICA CORKS

Developed for the wine industry to address corkiness, inconsistency, random oxidation, and leakage, these corks are made from Suberin, the purest part of the cork, that is blended with a proprietary polymer which enhances the natural elasticity and sealing properties of the cork. The corks are symmetrical and totally natural in appearance. They are ideally suited for use with wines that are intended for enjoyment 12-18 months after bottling. Bottles can be put on their side immediately after corking.
